The FONIX® F20 and FP20 Hearing Aid Analyzers

Solid Performance
In Two Convenient
Packages

The low cost of the F20/FP20 analyzers now brings FONIX quality within the financial reach of the small clinic or dealer.

Featuring:

29 Test Frequencies (250 Hz to 6.3 kHz) 2nd, 3rd, & Total Harmonic Distortion Measurements.

The FP20 and the F20 can be seen at the Frye Electronics booth (#52) at the NHAS convention and at the ASHLA convention, (booth #20).
